I tend to get stressed out easily so I would need to take my time and relax. Next time, I will want to practice on inverting with the techniques my demonstrator showed me. Also, lubricants are really helpful!

Assessor Feedback

Dam was not secured well to the top frame

It was very hard to find the location of the caries as it wasnt visible on the occlusal surface. I should be more careful with high speed burs, remembering to only use the very end of the bur. Need to work on removing DEJ caries.

Assessor Feedback

Good time management initially. Careful with cavity prep, but took some time with mesial wall DEJ caries. Bur gouge on cavity floor. Gross overextension.
