**Student Feedback**

I have most of the dam inverted on the gingival margin, but a few are left lingually.

**Assessor Feedback**

Task not finished so not reviewed in detail, but had a brief view at the very end of the session and noted that 1. upper arch was not covered and 2. the dental dam was not engaged on all frame lugs. A few surfaces were also everted.  
Previous tasks were completed in a timely manner.  
Good efforts for the first dental dam session!
