**Student Feedback**

Did well at:  
- Improving timing upon each trial/task, how fast I could fit the clamp onto tooth (punch hole, put clamp through dam, and putting the frame on)

Things I can improve on:  
- Selection of clamp  
- Inverting the dam (use flat plastic and press along the anatomical crown margin, dragging the dam slightly apically)  
- Floss ligature: using both hands and not relying only on dominant hand (especially when securing floss for example)

**Assessor Feedback**

Discussed dam inversion

**assessor\_positioning\_MC1**

Yes

**assessor\_positioning\_MC2**

Yes
