The students at the bottom are with highest % of No Responses

Patient Count and Age Distribution for DDS4

The table shows ages of patients with patient count and age group distribution, but all information regarding patient ages was not filled appropriately. Thus, the age distribution is not accurate for all students. The dotted lines in the graphs indicate the age groups 0-6 and 7-17.

Average Patient count is 30.0 per student.

The highest number of patients seen by a student is 58.

The lowest number of patients seen by a student is 4.

Data is not very accurate due to missing fields in the forms but should be close.

Student ID	Student Name	# Patients	Patient Ages	Age count	Clinic
