Chen Chen	Minimal clinical time as yet. Has shown some lapses in communication with patient. Not yet confident with decision making. Swayed by opinion of non-restorative team, without thought for prosthodontic perspective, although these are early days. Keen and eager to get treatment done. Enthusiastic proactive attitude.
Jaafar Abduo	Hamza started the clinic very recently, due to delay in attaining AHPRA registration

*Has a clinical incident occurred during this month while you were supervising this student?*
