**Reflect on the student's performance across the month - what are some strengths and areas you have identified for improvement.**

Staff	Comments
Chen Chen	Strengths: attention to detail, clinical skills fairly good, knows where improvement is needed even if he doesn't know how. Cases are organised and well planned. Attention to detail, fairly meticulous and takes pride in his work. Weaknesses: Cannot always justify reasoning for treatment choices. Tendency to change treatment plan if plan is challenged, even though there was good justification for initial plan. On the up side, he is open minded which is a good thing.
Jaafar Abduo	Very good learning attitude
John Pearson	I have no real concerns regarding this student. Seems to be efficiently going about his task.

**Has a clinical incident occurred during this month while you were supervising this student?**

Staff	Comments
Chen Chen	No
Jaafar Abduo	No
John Pearson	No
