#### ***Student Feedback***

I found this session to be quite difficult. I was very nervous and although I had watched the lectures and procedural videos, I felt like I was second guessing everything. I also found that although the demonstrators made certain steps look effortless, that was not the case when I attempted to recreate what they did.

From the first task onwards, I really struggled with flossing the dam interproximally. After a lot of struggle, Dr Fam taught me that I should floss between the dam and tooth and not on the dam itself, and to also shorten the amount of space between my fingers when I flossed. I still feel I need to improve on this aspect of dental dam isolation, as I still struggle. I also struggled because I found the dam would rip every time I went to expose the beak on the mannequin. Perhaps I should be more gentle with the number 6 flat plastic instrument.

Before my next pre-clinic session, I am going to rewatch the relevant lectures to see if there's anything I will now understand better, now that I have actually experienced attempting dental dam isolation. I really hope with practice that this comes easier.

#### ***Assessor Feedback***

Cautious and careful pace today, Joanne, I know you are still feeling your way through but I think you can try to pick up the pace next time. Be mindful of posture - bending over excessively sometimes. Be aware of your hands when wearing gloves, a few infection control breaches by touching mask.

#### ***assessor\_positioning\_MC1***

Yes

#### ***assessor\_positioning\_MC2***

No

Rubric Scores

Rubric	Score
Time Management	1.0

Evaluation for DDI-DDS: Dental Dam Isolation (DDS)

Marking Checklist	Student	Educator	Critical
Nasal airway open and oral cavity covered	Yes	NA	Yes
Chosen clamp fits securely around tooth	Yes	NA	No
Clamp correctly secured with floss, floss is secured and contained	No	NA	Yes
Clamp handling: wings and beaks exposed, no floss caught in beaks	No	NA	Yes
Accessory retention appropriately placed (if applicable)	NA	NA	Yes
Dam secured to frame, frame correctly oriented	Yes	NA	Yes
Appropriate number of teeth isolated	NA	NA	Yes
Dam flossed interproximally, including distal to the clamp	No	NA	No
Dam inverted around all teeth	NA	NA	No
No large tears	No	NA	Yes

Dental Dam Isolation (DDS) Score: (Cutoff: 0.81)

Pass:

# Form 2: 03-04-2025

### Student Feedback

I think I was still quite nervous today and was quite slow due to lack of confidence. I enjoyed this session a lot more. I breached infection control once when I went to the clean station with gloves. I think I need to be more efficient and confident and faster.

### Assessor Feedback

Good conservative prep. Need to work on infection control. Please do not touch your manual or collect things at the issue table with gloved hands.

### assessor\_positioning\_MC1

Yes

### assessor\_positioning\_MC2

Yes

Evaluation for SOP-DDS: DDS1 SmOcc Prep

Marking Checklist	Student	Educator	Critical
Selective caries removal demonstrated: pulpal	Yes	NA	Yes
Selective caries removal demonstrated: peripheral surfaces	Yes	NA	Yes
DEJ is caries free	Yes	Yes	Yes
Cavity outline reflects extent of caries	No	Yes	Yes
Cavity depth reflects extent of caries	Yes	Yes	Yes
Cavosurface margins supported?	Yes	Yes	Yes
Internal surfaces smooth	Yes	Yes	No
Adjacent teeth/surfaces: no iatrogenic damage	Yes	Yes	Yes

DDS1 SmOcc Prep Score: 1.0 (Cutoff: 0.86)

Pass: True

Evaluation for SOR-DDS: DDS1 SmOcc Resto

Marking Checklist	Student	Educator	Critical
Composite handling: Homogenous	NA	Yes	Yes
Surface finish smooth	NA	NA	No
Margins: No deficiency	NA	Yes	Yes
Margins: No excess	NA	Yes	No
Tooth morphology and contour resembles anatomy	NA	NA	No
Adjacent teeth/surfaces: No iatrogenic damage	NA	Yes	Yes

DDS1 SmOcc Resto Score: 1.0 (Cutoff: 0.69)

Pass: True

Evaluation for FS-DDS: DDS1 FS

Marking Checklist	Student	Educator	Critical
Correct surface preparation prior to placement	Yes	Yes	NA
Neat placement in fissure system	Yes	Yes	NA

DDS1 FS Score: 0 (Cutoff: N/A)
