Assessor Feedback

The instruments were sterile, the pink is the control.
Make sure you wipe the glasses before placing them in the clean zone.
Ensure you wipe the belly bar of the nurse chair.
The tray for the handpieces were wiped but not the holder they rest on. The suction was not draped and the holders were not wiped.
The dirty end of the suction was held with the non-dominant hand, then just under the suction tip was touched with the same hand after it had been wiped, re-contaminating it.
There were some small mistakes that were quite important.
