Student Feedback

It was challenging to keep the dam from tearing, especially when flossing between all the teeth when isolating multiple teeth. I also found it position my hands in a way that would allow it enough pressure to invert the dam

Assessor Feedback

Good time management and tidy work with dental dam.

Lower anterior everted, but corrected on instruction.

Excellent attempt on your first session.

Student Feedback

Found it challenging to smooth the internal surface of the cavity preparation. When trying to smooth the walls, I was also hesitant as I didnt want to overextend the cavity outline

Assessor Feedback

Good amount of material for sealant
Time management could be improved for sealant
Good finger rests
Prep slightly overextended
Good removal of unsupported enamel
