Student Feedback

I need to pay attention and punch the correct number of holes asked for the task. I also need to practice flossing more in the interproximal regions and pay attention to clamp placement.

Assessor Feedback

Isolated 37-43, did not punch sufficient holes for 44
Demo technique for inversion at lingual lower incisors, able to achieve this

Evaluation for DDI-DDS: Dental Dam Isolation (DDS)

Marking Checklist	Student	Educator	Critical
Nasal airway open and oral cavity covered	Yes	Yes	Yes
Chosen clamp fits securely around tooth	Yes	Yes	No
Clamp correctly secured with floss, floss is secured and contained	Yes	Yes	Yes
Clamp handling: wings and beaks exposed, no floss caught in beaks	Yes	Yes	Yes
Accessory retention appropriately placed (if applicable)	Yes	Yes	Yes
Dam secured to frame, frame correctly oriented	Yes	Yes	Yes
Appropriate number of teeth isolated	Yes	No	Yes
Dam flossed interproximally, including distal to the clamp	Yes	Yes	No
Dam inverted around all teeth	Yes	Yes	No
No large tears	Yes	Yes	Yes

Dental Dam Isolation (DDS) Score: 0.86 (Cutoff: 0.81)

Pass: True

Overall good first attempt at FS. I need to ensure that I remember small details with procedure/protocol (eg. remember to take out the burs when NOT in use). I also need to ensure that I wash, etch and light cure for the correct amount of time as per manufacturer instructions. I am excited to continue learning.

Assessor Feedback

Agree. Good job. Remember to use the correct setting for slow speed handpiece. Remember to use light paddle when curing Remember to dim overhead light when placing and curing FS

I need to be gentler with the highspeed, be more patient with the bur. I also need to be sure not to cut too much onto the buccal side. I also need to pay attention to the angulation of my handpiece.

Assessor Feedback

Slight overextension to buccal
Handpiece angulations

Would like to achieve completion of applying a dental dam quicker, I also need to make sure I count the number of teeth to punch correctly as per the task instructions. I can do a much better job at inverting the dental dam at the gingival margins.

Assessor Feedback

Dental dam could have been inverted more, some hiccups in the process but a workable dental dam achieved
