**Student Feedback**

Hard to fit the teeth into the dental dam hole without the clamp in task 5

**Assessor Feedback**

Dam ripped before session ended, insufficient time to redo task. Several infection control breaches - start being mindful of where your hands are when wearing gloves. Please remember your learnings in ergonomics and posture, they are not separate lessons, you need to carry it through with you to all sessions. Do not bend over excessively. Head blocking dental light through most of session. Please bring the pens we asked you to bring next session.
