Student Feedback

I made my access too big, need to work on smaller accesses and confidence in drilling. Resto not assessed but I did present my progress and I had let the conseal seep near the resin composite, covering my composite. Need to be more careful with conseal placement as well after resin composite. I think Im okay with just the fissure sealants.

Assessor Feedback

Try not to place conseal over the composite, we need to know you can finish and polish resin
