Assessor Feedback

There is no need to wash your hands and then sanitise straight away, but I like your thoroughness.
Ensure you carry the instruments to the dirty area with the shapes towards the floor.
High speed suction tip is disposed of in the bin, not the dirty bay.
Ensure to remove the high speed suction holder to the dirty bay.
Dirty bay was touched without gloves on, but student realised and washed her hands.
Did not remove the triplex tip or high speed suction adaptor, realised at the end and rectified appropriately.
Need to use two wipes for the suction and suction unit.
Review when you would wash your hands vs hand rub.
