9.3 Manage the oral care of patients who have been admitted to general, psychiatric or rehabilitation hospitals/facilities

10.1 Recognize normal growth and development of the craniofacial complex and diagnose abnormalities in the developing dentition utilizing clinical examination and other diagnostic tests.

- Completed with substantial assistance
- Completed with minimal assistance
- Completed independently (competent)
- No basis for evaluation

- Completed with substantial assistance
- Completed with minimal assistance
- Completed independently (competent)
- No basis for evaluation

11.4 Recognize when specialist oral surgical care is indicated and make appropriate referral

Competent to work semi-independently at Royal Children's Hospital

Final Grades

Describe the strongest aspects of the student’s performance, including examples of noteworthy incidents

Date	Staff	Comments
2025-11-06	Nicky Kilpatrick	Marlene is a good all round clinician, knowledgeable, skilled and professsional.
2025-11-07	Wendy Cheney	Despite Dr. Yu's "delicate" state, she continued to provide highly competent and efficient care to each and every patient. Her technical skills in both restorative and extractions are simply outstanding. Her calm and compassionate manner is greatly appreciated by her patients and their families. She has a wonderful future ahead as a specialist paediatric dentist It has been a privilege and a pleasure to be witness to Dr. Yu's postgraduate studies. Many well-deserved congratulations!!
2025-11-10	Daniel Andreasen-Cocker	See daily comments
2025-11-10	Mihiri Silva	Marlene has performed consistently throughout her candidature and is now able to provide high quality dental care for children independently. While there are many strengths to her performance, including her comprehensiveness, clinical competence and overall well-rounded approach, I think the thing that stands out is her generosity and leadership with her peers, among who she has enormous respect. This is an important skill and should place her will in her future as a paediatric dentist.

Describe any aspect of the student's performance where he/she needs to spend more time and effort. Include any examples of critical incidents

Date	Staff	Comments
2025-11-10	Mihiri Silva	For such a competent high achieving student, Marlene can sometimes present her self as less confident or knowledgable through mannerisms. This is something that many people are conditioned to do but I think as takes moves into a role of a paediatric dentist, who is required to demonstrate leadership, Marlene might consider how this might affect some of her professional relationships. It is of course a minor point - I am simply encouraging Marlene to be a bit bolder when she needs to be (but also remain true to her genuinely kind and considerate personality which I have highlighted as a strength above).
